Milan Aleksic

Extremely challenging year 2009 was no year for excuses. In this challenging year you have professionally and above expectations completed all WARP New Media development tasks you faced, no matter if they are difficult or mundane.

Although new to WARP framework and NET platform, you accommodated extremely fast and greatly contributed to the delivery to Polla Chilena and contributed in keeping deliveries to LNB and Swiss LoRo customers on track.

We thank you for your hard and professional work.
